

OLDCASTLE SURFACES... EXCEEDING CUSTOMER'S EXPECTATIONS

For more than 28 years Oldcastle Surfaces, Inc (formerly known as Walsh Fabrication, Inc in the Savannah/Hardeeville area) has served the remodeling and new construction industry with quality countertops and installation services. Oldcastle Surfaces has been able to become an industry leader by devoting the right people to the right jobs and trying to not only meet but exceed every customer's expectation.

Oldcastle has a top of the line showroom with displays showcasing our primary vendors and allows every customer the opportunity to compare and contrast several product lines prior to their purchase. Oldcastle offers natural stone, quartz, solid surface, wood and recycled materials for fabrication and installation. "Offering a variety of products better suits our customers and makes their shopping experience a pleasant and easy purchase." To further narrow down the amount of trips a homeowner/builder can select a sink at Oldcastle. We carry a line of 18 gauge stainless steel sinks available in the most popular sizes as well as china bowl vanity sinks.

Oldcastle not only specializes in countertop applications for kitchens and baths but is well versed in commercial applications like shower surrounds, tub decks, toilet partitions, and residential applications such as fireplace surrounds, out door kitchens and more. "We are able to complete complex projects with the use of laser templates and advanced stone machinery." To try and set themselves apart Oldcastle Surfaces

also offers a sealant for natural stones that extends a 15 year warranty on staining.

Oldcastle Surfaces operates with the notion that no customer or project is too small and every job is important. That philosophy has helped build the relationships that make it worth it.

For more information, please call Oldcastle Surfaces at 843.784.7214, visit their showroom located at 8406 Speedway Blvd. in Hardeeville or check them out on the web at www.oldcastlesurfaces.com.
